

BE A PART OF

## THE VINYL REVIVAL

WHAT GOES AROUND

COMES AROUND

The same care and attention to detail you're accustomed to from Digital Force for your CD and DVD projects is available for vinyl. Our quality production and superb customer service began in the days of vinyl and continue today, no matter the media.

## WHY VINYL?

A vinyl record is much more than an audio platform. It's a canvas that allows you to maximize your full creative potential. Each individual LP jacket panel has 144 square inches to work with, allowing for **rich artistic designs** that will make your product stand out from the crowd. But your artistic vision isn't restricted to just the jacket. Inner sleeves give you two additional surfaces for graphics. Plus, the record itself can come in a multitude of colors or combination of colors. We also offer picture discs and shaped records. The only limit is your imagination! Let us help you create a **stunning collectible item** that your fans will cherish.

Our commitment to quality means you'll receive the best looking and sounding product at the best value, all with some of **the fastest turnaround times** in the business.
